Re: Application of Laidlaw Berlin Biopower, LLC for a Certificate of
Site and Facility for a Renewable Energy Facility in Berlin, NH

Dear Mr. Burack:

On behalf of Waldron Engineering, Inc. we wish to advise members of the Site Evaluation Committee that Waldron is no longer providing engineering services to Laidlaw Berlin, LLC for the above mentioned project. In fact Waldron has not furnished any professional services to the Project for quite some time. We note that in Laidlaw's December 15, 2009 Application to the Committee, it represents that "Waldron is providing engineering consulting services with respect to the Project's equipment design, layout and balance of plant integration." This is no longer the case and we wanted to make sure that there were no misunderstandings.

Should you have any questions regarding the above, I can be reached at the above address.

Regards,

Terence J. Waldron, P.E.
President
