April 22, 2010

Thomas Getz, Vice-Chairman  
New Hampshire Public Utilities Commission  
21 South Fruit Street, Suite 10  
Concord, NH 03301

Mr. Getz:

I am writing in support of the Groton Wind project (Docket no. 2010-01). My residence and the residences of my son and my mother are the closest properties to the proposed site. We are the Groton residents most impacted by the project, but I support it.

I have lived on this road for 56 years and have been a taxpayer in Groton since 1972. Even though I don't particularly like the idea of the disruption on the road that the construction will cause or even the idea of looking at windmills, I support the project because it will help the taxpayers of Groton. It will provide revenue to offset town expenses, and it will provide power to the state of New Hampshire. I would rather look at windmills that are generating power and revenue than at condominiums or other type of development.

Sincerely,

  
Gordon Coursey
