Thomas Getz, Vice-Chairman
New Hampshire Public Utilities Commission
21 South Fruit Street, Suite 10
Concord, NH 03301

Mr. Getz:

I am writing in support of the Groton Wind project (Docket no. 2010-01). My residence is next to the land of the proposed project.

I am 82 years old and have lived on this road for most of my life. I support the windmills because they will provide tax revenue to the town of Groton and electricity to the state of New Hampshire. Having the windmills there will prevent other development on the land and protect the habitat. I would much rather have windmills on the land than condominiums, houses, or other projects that would destroy the land and habitat.

Sincerely,

A handwritten signature in cursive script that reads "Joyce Coursey".
