Re: Groton Wind, SEC Docket no. 2010-01  
May 6, 2010

Dear Sir,

I am writing in support of the Iberdrola wind farm project in Groton, NH. I do believe that the Town of Groton could benefit greatly from this project. Groton is a small town with little tax base and while certainly in a beautiful setting, it remains poor. My company has recently relocated into Groton and is just beginning to hire local people. (We manufacture and distribute commercial explosives and, candidly, we are also hoping to be considered as a potential vendor on the project as we are already in the community).

In an age of reduced dependence upon non-renewable energy sources, this project strikes me as a "win-win" situation for both the local community and the state. Thank you for considering my opinion.

Very Best Regards,

Timothy W. Rath
