

I live at and am a resident of 141 Edgar Albert Road, Groton, NH. I am for the Groton Wind Project to move forward. The town has the site to offer, and we need an alternative energy for our area. After visiting the Lempster Wind Farm, and speaking to residents there, visiting RI, seeing the windmills on the beautiful horizon, there is no doubt it would be an asset to our area, and needed. We cannot live independently in NH and continue to depend on other sources of fuel. Please take my thoughts into consideration.

Sincerely,  
Helen Ann Martyszyn
