Re: Cold Patch Repairs to Groton Hollow Road

Dear Ed,

This letter is a follow up to the conversation between Kelly Revell and Road Agent Frank Simpson regarding the need for patching to an area of pavement on Groton Hollow Road.

The conversation was a verbal agreement that Groton Wind would reimburse the Town for the time and materials they used to make the temporary repairs. The repairs were done on December 3, 2012. In the Spring of 2013, Groton Wind has agreed to come in and make the permanent repairs to that section of the road at their expense.

This repair does not, in any way, exempt the need for the engineer's inspection and report on the entire road at the conclusion of the construction/installation phase of the project as outlined in the agreement between the town and Groton Wind.

We look forward to your cooperation with this matter and will look forward to its completion in the Spring of 2013.

Sincerely,

Mark H. Andrew, Chairman

Cheryl L. Lewis

Edward L. Haskell, Jr.
