Docket No. 2010-01 Motion to Intervene Groton Wind, LLC, Certificate of Site Facility

Dear Sirs and Madams:

My name is Marianne Peabody a property owner since 1988 located at 551 Groton Hollow Road, Rumney, NH 03266, known as Parcel ID Map 16-2009 of the Town of Rumney's official records.

I would like to begin this motion by stating: "I am not opposed to the Groton Wind Project "Nonetheless certain items have been brought to my attention that raise major concerns relating to the lack of consideration nor sensitivity relating to the surrounding property owners consequences, price, aftermath and aftereffects we are left to deal with for achievement and profit of others.

1. According to RSA 672:3 certified notice was not required while considering abutter notification to me. Clearly my property is directly affected by the impact of the clear-cut of trees and brush along with the unsightly location of the maintenance building. This has caused my property along with my four other neighbors property values to decline considerably.

2. Our right to re-sale will never be sold for market value again.

3. The way the site presents itself today has caused a financial hardship to our immediate neighborhood.

4. I request to be notified for further deliberations/hearings regardless of the in-significances of an as-built plan. All abutters direct or indirect have the right to know if further improvements to the Groton Wind Site may impose a direct further impact to surrounding property value.

5. I am requesting a concentrated, generous, dense live tree buffer along and up the barren hill where the maintenance building sits.

As mentioned at the beginning of this motion I am not opposed to the project. I do oppose when Developers, Town's and State entities refuse to take into consideration the impact brought upon the small unimportant property owners of the immediate area for advantage.

I look forward to be heard regarding my concerns.

Respectfully Submitted,

Marianne Peabody
