**Subject:** Wild Meadows Wind Farm

Dear Representatives:

As a resident of Bridgewater, NH, I want to strongly support a moratorium on additional Wind Turbine Siting until additional information about the economic, wildlife and ecological impacts are understood. Ridgeline turbines are totally out of scale with the surrounding environment and a sensible siting policy needs to be developed before additional wind farms are approved.

Sincerely,

Russell Blair  
217 Shore Dr. North  
Bridgewater, NH 03222
