Subject: wind turbines

Administrator Drew --

I respectfully submit that I am TOTALLY OPPOSED to allowing the Wild Meadow Wind Power project near Newfound Lake to go forward.

PLEASE do what you can to defeat it, or to at least pass a moratorium on such projects.

We have vacationed for decades on Newfound Lake, one of the cleanest and most beautiful lakes in New England; and now we live there fulltime. The towers are ineffective and unsightly. They will ruin the views and spoil the purity of the lake. They will be a disaster for New Hampshire.

Please help us maintain one of our state's most valuable assets!

Thank you.

Sincerely,

Sharon Devine
