**RE: NH SEC Docket No. 2014-03/Notification of Site Visit**

Dear Mr. Iacopino:

Per the New Hampshire Site Evaluation Committee's August 7, 2014 Modified Procedural Order, I am writing to inform you that the site visit was conducted on August 29, 2014. All parties and interveners attended. Mr. Chris Gray (an employee of Counsel for the Public's expert) accompanied Counsel for the Public to the site visit.

The August 7, 2014 Modified Procedural Order also states that a further procedural order will issue upon notification that the site visit has been accomplished. Granite Reliable Power feels that this proceeding can still be concluded by late October, as originally scheduled, and is willing to tighten its own deadlines without constricting any other party's deadlines.

Specifically, Granite proposes the following deadlines:

- Counsel for the Public's and the Intervener's pre-filed testimony is due on September 8, 2014.
- Granite will issue data requests 7 days later, on September 15, 2014.
- Counsel for the Public and the interveners will reply to Granite's data requests 14 days later, on September 29, 2014.
- Technical sessions to question the witnesses of Counsel for the Public and interveners will be held on October 3, 2014.
- Counsel for the Public and interveners will have 7 days, until October 10, 2014 to reply to data requests of Granite.
- The hearing will be held, as originally scheduled, on or around October 20, 2014.

Please note that none of the deadlines for Counsel for the Public or interveners are burdened vis-à-vis the original scheduling order. But Granite is willing to tighten its own deadlines in order to achieve resolution of this proceeding in as timely a manner as possible.

PRETI FLAHERTY
