Paul and Mary Simard <simards74@myfairpoint.net>

Dear Sir:

Whatever you do remember Article 2 and Article 12 of the New Hampshire Constitution, before you do anything please read them. Several towns in the Newfound area have voted to reject these government supported wind and transmission projects by margins exceeding 2 to 1.

There is a basic difference between the power granted to Roosevelt's Rural Electrification policies of the 30's and the wind turbine and power line projects being proposed today. That difference is people wanted electricity in their homes. People don't want to lose their hard earned property and property values so that large or foreign corporations can generate profits.
