Campbell McLaren, questions and comments/requests regarding SEC rules draft, 2/15/15
Please post this on the rules-making site, separately from any other submission I have made or make in the future.

1. Who was responsible for the decision not to include large sections of the pre-rules-making documents, specifically the suggested buffers for electromagnetic radiation?
2. I request that the applicant be required to provide legal proof of ownership of their site and/or route in order that their application to the SEC be considered complete.

further, please post on the site the following, separate from above:
