

3/16/2015

Dear Ms. Murray,

I am sending you this email to formally make my position known, and to have it be on record.

I am a currently resident of Orange, New Hampshire , and have been for the past 12 years.

I consider my fundamental property boundaries and rights as identified and protected under our state constitution are being threatened by the legislation and actions proposed by Ms. Susan Geiger and Energias de Portugal.

I object to the suggestion by Ms. Susan Geiger (and the people, companies, and interests she represents) that all aspects of my current private property boundaries and rights should not remain and do not need to be respected in regard to their proposal and intentions.

Consistent with the following excerpt from our state constitution, I expect my rights should remain accordingly:

[Art.] 12. [Protection and Taxation Reciprocal.] Every member of the community has a right to be protected by it, in the enjoyment of his life, liberty, and property; he is therefore bound to contribute his share in the expense of such protection, and to yield his personal service when necessary. But no part of a man's property shall be taken from him, or applied to public uses, without his own consent, or that of the representative body of the people. Nor are the inhabitants of this state controllable by any other laws than those to which they, or their representative body, have given their consent.

If you should have any questions, please do not hesitate to contact me directly.

Thank you,
Chuck
