

State of New Hampshire Site Evaluation Committee

NOTICE OF STAKEHOLDER TECHNICAL SESSION ON JUNE 29, 2015 REGARDING ISSUES IN RULEMAKING DOCKET NO. 2014-04

June 10, 2015

PLEASE TAKE NOTICE that the Site Evaluation Committee for the State of New Hampshire (Committee) has scheduled a **stakeholder technical session**, to review and discuss issues raised in the Committee's rulemaking initiative under Docket No. 2014-04, to be held on **June 29, 2015 at 9:00 a.m.** The technical session shall be held at the offices of the New Hampshire Public Utilities Commission, 21 South Fruit Street, Suite 10, Concord, New Hampshire.

The technical session will be open to the public and will be conducted with the facilitation of staff working with the Committee, but will not be attended by or otherwise involve members of the Committee. The technical session is intended to focus in detail on the following specific issues:

1. Wind energy facility safety setback requirements;
2. Wind energy facility noise limit (three minutes per hour exceedance);
3. Wind energy facility shadow flicker limits;
4. Historical resources evaluation (consistency with NHPA); and
5. Other relevant technical standard or specification issues.

Copies of this Notice of Stakeholder Technical Session shall be posted at the offices of the New Hampshire Public Utilities Commission and at the Department of Environmental Services. This Notice shall also be posted to the Committee's website.

Martin P. Honigberg, Chairman
Site Evaluation Committee
