COMMITTEE ON SCIENCE, TECHNOLOGY AND ENERGY

July 18, 2015

Jane Murray, Secretary
NH Site Evaluation Committee
NH Department of Environmental Science
29 Hazen Drive, Box 95
Concord, NH 03302-0095

RE: SEA-3 Request for Exemption (NHSEC No. 2015-01)

Dear Ms. Murray and Committee Members:

As a state Representative and member of the Science, Technology and Energy I fully support this increase storage proposal for propane, I believe this will help lower costs to the Citizens of New Hampshire

I encourage the Site Evaluation Committee to grant an exemption to SEA-3 from the full certification process, so that SEA-3 can commence construction of this critically needed energy facility without delay. Requiring full certification will deprive New Hampshire consumers of a crucial energy facility, resulting in decreased energy supplies and increased costs, with no resulting benefit.

Sincerely,

Rep. Glen Aldrich
Belknap county District 2
Gilford and Meredith
