Re: Docket 2015-01 Sea-3 Request for exemption from a full Site Evaluation Committee project review.

Dear Mr. Honigberg:

We are strongly opposed to the Sea-3 request to an exemption from a full application and review of their expansion project. For all the reasons that you have heard and are well known by now and other very serious concerns, we request that, at a minimum, the SEC should conduct a full and comprehensive review of the Sea-3 expansion project. This will be the only means available to fully respect the mandate provided the SEC by the Legislature. It is critically important that we are confident that due process has been followed and that no short cuts with regard to the protection of the public are permitted. To allow such a project, with such serious potential consequences, to be approved without a through vetting and critical analysis, would not be the right thing to do.

Thank you for your consideration and thoughtful consideration of our concerns.

Sincerely,

Abdallah Alhamdan & Family
