Dear Ms. Barbara Berwick,

First, thanks for your prompt response to our letter.

As you were inquiring about our protocols in your response, we want to confirm that we intend to follow the Rules as we did for the Winter 2020 post-construction sound monitoring campaign [1]. Please note that the Winter 2020 sound report was peer reviewed [2] and found that the “*methods employed by Acentech are generally consistent with those of ANSI S12.9 Part 3 and meet the requirements of the NH Code Admin. R. Site 301.18 for testing.* [2]” Also, the Winter 2020 sound report was received and accepted by NHSEC [3, ref: Agenda Item 2].

With the intended methodology clarified, we again humbly seek your permission to access lands located at 72 Reed Carr Road to perform the Spring 2021 post-construction sound measurements at location L4. Please let us know by March 21st if you agree to grant permission so we can plan our sound monitoring campaign accordingly.

If you have any questions, please feel free to communicate with us.

Regards,

EXTERNAL EMAIL:

This email originated from outside TransAlta. Do not click on links or open attachments, unless you recognize the sender and know the content is safe. Report suspicious emails to IT Security.

We will give permission only when we have total assurance that the testing would be done according to the protocols set up by the SEC committee which created the rules for sound measurements. We have absolutely no problems using our property when the testing is done according to the rules, however, if the plan is to do another study using your own protocols that do not meet these standards, as you did at the last testing on our property then we do not agree. We need to

know the exact protocols before we give permission as you have proven yourselves to be totally untrustworthy to date.

Dear Ms. Barbara I. Berwick and Mr. Bruce E. Berwick,

Please find attached a letter that we will send via certified mail. For convenience, we send this digital copy to the email addresses we found on the NHSEC website post-certificate filling.

If you have any questions, please feel free to communicate with us.

Regards,

Jeff L.
