Hello,

Unfortunately, I have a prior engagement so that I will not be able to speak at Thursday's SEC meeting.

It is disheartening that NH Residents' voices have not been listened to in regards to Antrim Wind, including:

- The need for more transparency with the SEC
- Some SEC rules for siting and approving wind turbines have been ignored, such as sound testing and lighting
- Lack of notification of meetings to interested residents
- The lack of unbiased information which the SEC uses to make its decisions.

I attended the SEC meeting during the summer, and was surprised that the SEC didn't take corrective action at the time, and my perception, which I hope was incorrect, is that the SEC, except for one person who asked good questions, seemed disinterested and would "rubber stamp" anything. I hope that this is now a wake-up call for all. Please protect what makes rural NH beautiful and natural, so that we all can keep enjoying it for years to come and attract others to visit us as well as potentially move to NH.

Thank you for your attention to this.

Best regards,

Karen Lukeman
Bristol, NH
