To Whom It May Concern:

I am writing regarding the potential windmill project in Antrim, New Hampshire. Team EJP has been involved in many windmill projects from Maine to Indiana, and we are very supportive of such projects.

Wind energy projects add to the tax base and create both short and long term jobs. They add a new source of property taxes. Most importantly, they provide a renewable energy source and reduce carbon fuel emissions.

Team EJP is particularly interested in potential New Hampshire projects as we have operated locations in Concord since 1970 and Keene since 2005.

I would like to wish the Town of Antrim and the State of New Hampshire best wishes moving forward with this project. I commend you for your focus on the long term benefits of this sustainable source of clean energy.

Sincerely,

Steven E. Prescott, President
Everett J. Prescott, Inc.
