

February 25, 2016

State Senator Jerry Little  
Senate District 8  
State House, Room 105-A  
107 North Main Street  
Concord, NH 03301

Dear Senator Little:

I am writing to correct your misinformed statement to Governor Hassan and the New Hampshire Site Evaluation Committee that the "Antrim Wind Energy project ... will generate enough emissions-free electricity to power 12,000 New Hampshire homes." Please replace "12,000 New Hampshire homes" with "12,000 Massachusetts homes." Here is the graphic from the US Energy Information Administration for the situation last January:

Do you really think it is a good idea to place 500 foot tall structures on top of <sup>1</sup>300 foot to 700 foot hills and mountains in a pristine valley area of New Hampshire to send electricity to Massachusetts? Really?

Sincerely,

Patrick J. Leary  
21 Weston Road  
Hancock, NH 03449

Cc: Martin Honigberg,  
New Hampshire Site Evaluation Committee  
21 South Fruit Street  
Concord, NH 03301

The Honorable Maggie Hassan  
Office of the Governor, NH State House  
107 North Main Street  
Concord, NH 03301

<sup>1</sup> Above ground level at about 1,100 feet. To use sea level in this situation would be a gross violation of local reality.
