Subject: Antrim Wind Project

Dear Pamela,

I am writing in support of the Antrim Wind Project. I believe that any concerns for this project are vastly outweighed by the positives for Antrim and the environment that could come from this wind farm.

I strongly feel that renewable energy must be pursued to combat global warming, and wind energy is a vital component of renewable energy. Programs such as 'Cool Monadnock', Antrim's Master Plan 2010, NH RSA 674:17(j), NH RSA 674:36(k) and numerous other local, state and national programs encourage the use of renewable energy to address global warming. We as a town have embraced renewable energy in our 2010 Master plan, and we must follow through by allowing the wind farm to proceed.

Sincerely,
Marie J. Harriman
Resident, Antrim, NH
