**Subject:** Antrim Wind Project

To Whom This May Concern,

I feel compelled to write regarding the Antrim Wind Project as this is the only way to cast my vote.

I have lived in Antrim for 42 years, commuting an hour to work each day. Although the commute is not ideal, it enables us to enjoy the sanctuary our home has become. We're close to the wildlife corridor with hundreds of acres of undeveloped land surrounding our property, affording us the same privacy today as there was 42 years ago. There isn't a day I don't give thanks and value how fortunate we are.

From our location, we will not be directly impacted by the Wind Project. That being said, I don't agree that a privately owned company should be able to put a commercial project in a conservation area that impacts the Wildlife Corridor the Harris Center has worked so hard to create. Make no mistake; there's no altruism here. Antrim Wind Energy, LLC is a privately owned company out to make a profit. The company is not local and will not be impacted by a change that will permanently change our landscape and environment. Many who have lived here for years will be visually and audibly effected by this with absolutely no recourse.

Please, vote no on the Antrim Wind Project.

Sincerely,  
Pamela Bagloe
