Subject: Antrim wind farm on Tuttle Hill

Dear Pamela Monroe, I am sending this email to you in support of the wind farm in Antrim. I am not a resident of that town any longer, we lived there for 10 years in the 1990'S. I was employed by the State of NH as a fire tower watch-person for a summer or two in the past. As I encountered many people up at Pitcher Tower in Stoddard NH I realized the amount of folks who were pro-wind ,if you will. The large Lempster Mt turbines were in the works for the near future and people seemed all for them. The shift to a different energy source needs to happen at some time and these wind farms are such a wonderful opportunity to start a new era in NH ! We already have many areas that have their hilltops developed with trophy homes. I would love to see turbines, doing good for many, rather than more private homes. It is a wonderful way the secure undeveloped (by houses) hill tops here in Southern NH. And yes, I am a native and Pro conservation. Thank you for your time in reading my message. Sincerely, Margaret S Russell, Henniker NH
