Michele and I have lived at this address for over 12 years. We chose Antrim for its natural beauty and the hospitality of a small town in New Hampshire. A few years ago, along with many of our neighbors, we actively opposed the massive intrusion from the proposed wind farm project. Both the SEC and the majority of the Antrim citizens rejected the proposal as it would forever change the town of Antrim. We hope you will add our names to the many other letters in opposition to the new Antrim wind project.

Respectfully Submitted,

Samuel and Michele Apkarian
