RE: Docket 2015-02  
Antrim Wind Energy LLC project

Dear Ms. Monroe:

In the past we have written to the SEC to express our opposition to the proposed Antrim Wind Energy project. Having attended the SEC hearing on November 1, 2016, we are now painfully aware of who we are opposing and the power of a well-funded special interest group on a governmental decision.

It is obvious to us that those representing the Antrim Wind Energy project are protecting their financial interests, while those of us in opposition are trying to preserve a beautiful natural area and, much more personally, our quality of life. Regardless of the information presented by the impressive team advocating for the proposed project, the literature is replete with people whose lives have been terribly affected by the presence of wind turbines, even to the need to leave or abandon their homes.

We are well aware of what your decision could mean for those of us directly impacted by these proposed wind turbines. We respectfully request that, once again, members of the SEC rule against the proposed wind project. Such a decision will preserve this natural and beautiful area and the quality of life of those of us who live in the area.

Sincerely,

Thomas W. Boyle

Janice B. Boyle
