

Dear Ms Monroe,

My name is Aaron C. and I am writing in response to the Antrim Wind Project. I am a resident of the State of New Hampshire and an avid hunter. I hunt throughout the year on the lands in which Jack Kenworthy of the Walden Green Energy Company is proposing to build the Wind Project on the lands in which I hunt on in the town of Antrim. I think that this is a fantastic idea and will not only bring many jobs to this small town but also in the long run will preserve the land for years to come following the period in which the windmills are set up on. There is plenty of land for me to continue to hunt on and the company has agreed to set aside the funds upfront to conserve the land after in which it is used for the windmills which provide plenty of energy to local areas.

Furthermore, the land owners of the property in which the land sits on is in favor of this project. In closing, I just wanted to reach out to you as a hunter, resident of the state and a licensed wildlife control operator for the state and let you know that I am in full support of this project.

Please feel free to contact me with any questions or concerns regarding this. Thank you,

Aaron C.
