

of a local photographer
I am enclosing the photos
- Willard Pond, Grey Lake -
of NH's most pristine lakes
Cedar Swamp, and some
wetlands, including the
in the middle of... previous
wildlife corridor it will be
(2) The impact on the huge
trough

+ their disregard for reasonable
citizen concerns. They have
never constructed such a

of ~~the~~ these lakes and wetlands.
I have travelled widely in
Europe and elsewhere and
have seen many successful
wind installations, but never
any in such a pristine
treasure of a location.

The money would be way
better spent on helping people
get solar. Now with Elon
Musk's solar roof tiles, it is
the way of the future. Our
solar panels ~~part~~ cover all our
needs and we are giving back
to the grid. Sincerely,
Alison Knowles Antine

Dear SEC

I am writing as a
concerned citizen who has
followed the wind proposals
/proceedings over the years.
I live far enough away
that I will not see/hear
the turbines. My concern
is two fold: (1) The shady
backroom deals that "Anttrim
Wind" has made over the
years with the select board etc.
