

To whom it may concern:

I am part owner of vacation property on White Birch Point Rd. in Antrim, N.H. and a member of the White Birch Point Assoc. of home owners. The proposed wind project will severely impact the view and ambiance from the assoc. beach property on Gregg Lake. It will also very probably decrease the value of my property and that of all the other members of the home owners assoc. I strongly urge you to reject the construction of the proposed wind project.

Thank you for your consideration, Fred M. Lurie
