**Subject:** AWE Wind Farm Project

Dear Ms. Monroe,

My name is Matt Hamilton and I would like to voice my opposition to the AWE Wind Farm project. My family has a cottage near Greg Lake and I have always enjoyed spending time up in Antrim. The idea of a wind farm being placed near Greg Lake is very saddening. Although I do think Green energy is very important wind farms can be very destructive to the environment they reside in. Noise, flickering, etc. will become a nuisance to the surrounding area. Another thing that makes me worry about the wind farms is who is in charge of them if a company decides not to use them any more. I have seen wind farms built, but I have rarely heard of them taken down which makes me wonder about the long term effects this will have on the Antrim community.

Please, please, do not let the wind farm destroy a very peaceful and inspiring place.

Thank

Matt Hamilton
