Mr. Robert Scott and Sub-Committee Members
New Hampshire Site Evaluation Committee
21 South Fruit Street, Suite 10
Concord, NH 03301-2429

Dear Mr. Robert Scott and Sub-Committee Members:

This letter is in response to the Antrim Wind Energy, LLC proposal.

To start, my husband and I are very concerned with the impact on the visual beauty that is New Hampshire. Even though this location is not in our back yard, it will dramatically affect those who will have to look at and deal with the windmills on a daily basis. Overall, visitors to our state will be forced to face a loss of beauty and tranquility that they seek in our beautiful state.

In addition, the negative financial impact to property values and businesses in the area is very concerning for such a beautiful area as Antrim. The financial assumptions regarding financial viability do not seem to be realistic of how much energy will be produced and revenue realized. Those missed assumptions will likely be negatively impactful to the community.

Finally, my husband and I are very active nature lovers. We are acutely aware of our environment and are mindful of how our own actions impact the world around us. SEC rejected the first application and overall the negative implications this project brings to the community. This second application is essentially the same as the first. We do NOT support this application and ask that it is rejected again!

Sincerely,

Susan HARRISES and Robert DAVIS
Portsmouth, NH
