Subject: Letter to SEC

Pamela Monroe, could you please forward to the appropriate individual(s). Thank you

December 1, 2016

Mr. Robert Scott, Chair
Site Evaluation Committee
21 South Fruit Street
Concord, NH 03301-2429

Dear Mr. Scott:

Re: SEC Docket 2015-02

I have read the Post-Hearing Memorandum from Antrim Wind Energy dated November 30, 2016. It states that "all four State Representatives and the State Senator support the development of the Project".

In the most recent "referendum" on this issue, I won election as the State Representative for Hillsborough District 38, which includes Antrim and surrounding towns. I am very much **AGAINST** the Antrim Wind Energy Project and any other wind energy project.

I just spent three months going door-to-door in Antrim and the surrounding towns in my district and, I would speculate that about 80% of the home I went to have family pets. Family pets among other wildlife and marine life suffer disastrous effects from the constant low frequency pulse of wind turbines. The manipulation of the public in thinking that this is "good, clean energy" for the environment is completely wrong. I am putting you and your project on notice for misrepresenting my "support" on this project.

The constituents in my district will get nothing positive in return, but will themselves suffer loss of property value, quality of life and possibly deleterious health effects.

I look forward to exposing the wind energy scam for what it is.

Sincerely,

*Honorable John J. Valera
