**Subject:** Antrim Wind Project

Good day to you,

This is to affirm my opposition to the current Antrim Wind Project proposal. Frankly, just on the aesthetic and environmental impacts alone, this is the wrong location for such a consideration. This the industrialization of our pristine hills and forests overlooking a lake region. My family and I have frequented Antrim and the surrounding area for over 30 years, bringing outside tourist dollars to the region. As an example, I have reserved a cottage on Greg Lake this summer (2017) and will spend over \$2000 in one 3 day weekend and plan to hike in those areas. Multiply that by the thousands of tourists that flock to the area throughout the year for its beautiful mountains, hills and lakes each year. If approved, this project will impact the tourism industry and cost the local economy the loss of tourism dollars. Tourists will go elsewhere. Myself Included. This is the wrong place for such a project. I strongly urge you to reject this project.

Sincerely,

Bill Harford
