Subject: Comments on Antrim Wind Project - Docket 2015-02

I write to express my strong opposition to the Antrim Wind Project. I have enjoyed the sanctity of this area for my entire 59 years and trusted that my children would have the same right. I spend a fair amount of time in California and have experienced first hand the gigantic windmills proposed. I note that they are situated amongst dozens of other similar windmills in desert regions, not in desired habitats of beauty. They are highly imposing and dominate the landscape, as they windmills would.

Please reaffirm your prior wisdom. Reject this project that would benefit a few at the expense of others, like me, who have paid the high taxes on our land. Where are our rights in this? Do we matter?

Sincerely

Charles Robinson

5 Brimstone Corner and 4 Craig Road, Antrim, NH
