Subject: Antrim wind energy

Mr. Robert Scott, Chair
Site Evaluation Committee
21 South Fruit Street
Concord, NH 03301-2429

Dear Mr. Scott:

I have read the Post-Hearing Memorandum from Antrim Wind Energy dated November 30, 2016. It states, that all four State Representatives and the State Senator (representing Antrim) support the the development of the project.

In the most recent "referendum" on this issue, I won election as the State representative for Hillsborough District one which includes Antrim , Hillsborough, and Windsor.

I am very much against this project. If my constituents don't want this project in their area, that is sufficient grounds for my disapproval.

sincerely,

Jim Fedolfi Representative elect until December 7 2016
