Dear Ms. Monroe,

I'm writing today to share my support for the Antrim wind project. I hope the Site Evaluation Committee will support the Antrim project.

Antrim will be the lowest-impact wind farm in New Hampshire. The project has gone to exceptional lengths to make sure it will not have unreasonable negative impacts. I was very happy to learn that the project won't have any impact on rare species of plants and animals, that very little wetlands will be impacted, and that homes near the project won't be impacted by shadows or blinking lights.

I think the developers of Antrim Wind have done a great job of making sure their project will fit seamlessly into the local community. There's no greater evidence for this than the fact that the Town of Antrim itself supports this project.

Please support the Antrim wind project.

Yours truly,
