

Hi Pam,

I am writing in support of the Antrim Wind Project. My family has owned a significant tract of land in Antrim, NH for four generations. Our land is one of the properties needed for the project and will house some of the turbines for this renewable energy source.

I look forward to the future where our country is not primarily dependent upon fossil fuel's as we continue to develop alternative forms of energy, including wind and solar. My extended family and I are proponents of this wind farm project and ask for your support.

Thank you very much,  
Chuck Bean
