

Hello Pamela,

My husband John and I would like to let you know that we enthusiastically support the Antrim Wind Project and all responsible clean energy development in the state of New Hampshire. We see this as a huge benefit, not only economically, but as a means of land/forest conservation and the diminishing of harmful emissions from current energy sources.

Thank you for all your hard work!

Sincerely,  
John and Rebecca Leonard  
67 Gregg Lake Road  
Antrim NH 03440
