Subject: Antrim Wind
Date: Monday, December 5, 2016 11:07:19 AM

I am writing to express my support of the Antrim Wind Project and to urge you to approve the application. I have been in favor of this since I first heard about it and want you to hear my voice. I am a little tired of hearing about the "visual impact" and about how it will ruin the beauty of NH. Wind turbines, to me are much more preferable than the toxic emissions from coal and oil burning plants that are invisible and deadly. Wind turbines to me are a symbol of clean renewable energy and progressive thinking. Please approve this project.

Thank you,
Anne Enman
