Subject: Antrim NH wind project.

Dear Pamela,

I am summer home owner at 208 Greg lake road in Antrim across from the public beach. Please be advised I am in full support of this project. My family and I do not find the possibility of having a view of windmills objectionable, nor are we concerned about the sound. I have seen wind farms find them majestic and soothing. I believe the project would be good for Antrim, good for the environment and future generations.

Regards,
Ben Renda
