Dear Pam,

On behalf of the Milton CAT team, we'd like to convey our support for the windmill project in Antrim, New Hampshire. With a history dating back nearly 60 years as a New Hampshire business and more than 150 New Hampshire based employees, we have a vested interest in embracing progressive approaches to addressing our current and future energy needs.

Projects like these help to address the need for renewable and clean energy, provide potential options to lower electricity costs for consumers and businesses, create jobs and add to the tax base. We are very supportive of such initiatives.

Please accept this letter as confirmation of our team's support for the Antrim Wind Farm project.

Sincerely,

Glenn Scott
