December 7<sup>th</sup> 2016

New Hampshire Site Evaluation Committee,

We at Gordon Coursey and Son rely and depend on active and future wind farm site/projects. We are a timber harvester in the greater New Hampshire and Vermont region, also specializing in wind energy research, at the ground level.

When we see a potential wind farm project we are very eager to assist in any way, due to the work it provides and future work that comes from a wind farm. In regards I hope that this note helps the Antrim Wind project move forward for my business and all business's associated with wind farms in our region. Wind farms are a great source of clean energy and local jobs. Thank You.

Sincerely,

GFC & Son

Charlie Coursey
