**Subject:** Support for SEC Docket 2015-02 - Antrim Wind Project

Dear SEC Administrator Pamela Monroe,

My name is Henry Herndon and I am a graduate student at the University of New Hampshire working on a Master of Science degree in Natural Resources. I am writing you to express my emphatic support for the Antrim Wind Project that is being addressed in SEC Docket 2015-02. I feel strongly that bringing more well-designed wind projects such as this one to our state is a pre-requisite both economic and environmental progress in the coming years and decades.

While I do not live in Antrim, the value of local, clean energy alternatives in something that all of New Hampshire benefits from. Not only will this project continue the progress NH has made reducing the externalities associated with fossil fuel energy sources, but I know the developer has also gone above and beyond to plan this project in such a way so as to have minimal environmental impact.

Please support the Antrim Wind Project.

Sincerely,  
Henry Herndon
