To: Monroe, Pamela

Subject: Antrim Wind Project

Dear Ms. Monroe:

I am writing this afternoon as a follow-up to my October 4th appearance before your committee where I testified in full support for approval.

I recently read the Op Ed piece in the December 7 Concord Monitor by Representative Frank Edelblut. The major points raised in his piece include clean energy, including a contract to keep within the State, jobs and benefits for the Town of Antrim and their citizens.

Living in Lempster, we were first in the state to have a wind farm and this has been a positive project, supporting the local economy (tourism) and generating tax revenue which benefit the residents.

I look forward to hearing positive news upon completion of your deliberations.

Sincerely,

Jim Beard
Lempster
