Subject: Antrim Wind Energy Project

December 7, 2016

Dear SEC Members,

I am sending this letter to show my support for the Antrim Wind Energy Project. I would like to urge you to approve their application. As a resident of New Hampshire I am very concerned about where we get our energy. It is my hope to see our state's energy be generated from a sustainable source. This project can help achieve that goal as well as to help to further reduce our dependency on fossil fuels.

Also, from what I understand, this project seems to have met all the necessary requirements to be built. I hope you will consider this request and support the approval of this important project.

Thank you for your time and consideration.

June Behrmann
Rochester, NH
