Subject: Antrim Wind Power

Hi Pamela,

I am writing you in opposition of the proposed wind farm project. I am a resident of Antrim and live on Franklin Pierce Lake, I was just sent a computer rendition of what this project will look like, and I am not pleased what this project will be doing to the natural landscape. As well as what will happen to the value of residents of FPL property values. I urge you to reject this project from moving forward as the town residents have already voted to strike this down once already, and I don't see many changes in the newest version.
