21 South Fruit Street, Suite 10  
Concord, NH 03301

Re: Application of Public Service Company of New Hampshire d/b/a Eversource Energy  
("Eversource") for a Certificate of Site and Facility for the Construction of a New 115 kV  
Transmission Line from Madbury Substation to Portsmouth Substation SEC Docket No. 2015-04

Dear Ms. Monroe:

The New Hampshire Division of Historical Resources (NHDHR) had previously issued a letter on May 12, 2016 to the Site Evaluation Committee indicating that the above referenced application had not fully identified architectural/above ground resources in the project area. The NHDHR is now in receipt of additional survey products identifying historic resources in support of the application. Pending final approval of the Durham Point Historic District Area Form at the NHDHR Determination of Eligibility Committee on June 8, 2016, the Applicant has concluded the identification process according to NH RSA 162-H:7, IV. The applicant has agreed to address any comments that may derive from Determination of Eligibility Committee review.

Sincerely,

Nadine Miller  
Preservation Project Reviewer

CC: Catherine Finneran, Eversource Energy
