**Re: Application of Public Service Company of New Hampshire D/B/A  
Eversource Energy for a Certificate of Site and Facility  
Docket No. 2015-04**

Dear Ms. Monroe:

I am a recent resident of Durham, New Hampshire and have just become fully aware of the SRP and the direct impact to my property, my waterfront, and Little Bay. Please find enclosed an original and one copy of a Motion to Intervene as I am a Little Bay and Durham Point abutter and wish to file at this time with the New Hampshire Site Evaluation Committee. Current interveners (collectively known as the "Durham Point/Little Bay Abutters") have been copied on this document and the enclosure as noted below.

Thank you for your time and attention to this matter.

Sincerely,

Regis C. Miller

Enclosure

cc: Jeffrey & Vivian Miller, 297 Durham Point Road, Durham, NH

Matthew Fitch & Amanda Fitch, 291 Durham Point Road, Durham, NH

STATE OF NEW HAMPSHIRE  
BEFORE THE  
NEW HAMPSHIRE SITE EVALUATION COMMITTEE  
SEC Docket No. 2015-04

**Application of Public Service Company of New Hampshire d/b/a Eversource energy  
For a Certificate of Site And Facility for the Construction of a New 115 kV  
Transmission Line from Madbury Substation to Portsmouth Substation**

**Petition to Intervene  
from Regis C. Miller**

NOW COMES Regis C. Miller to petition the New Hampshire Site Evaluation Committee ("Committee") for leave to intervene in the above-captioned proceeding under N.H. Admin. Rule Site 202.11 and RSA 541-A:32. In support of this petition I have learned that:

1. On April 12, 2015 the Committee received an Application for a Certificate of Site and Facility from Everousrce for the construction of a new 115 kV Transmission Line from the Madbury Substation to Portsmouth Substation ("Application"). The proposed Project described in the Application will be located in the Towns of Madbury, Durham, Newington and the City of Portsmouth and a portion of the Project will run through my property at 283 Durham Point Road. The Committee accepted the Application as being administratively complete on June 1, 2016. See RSA 162-H7, VI

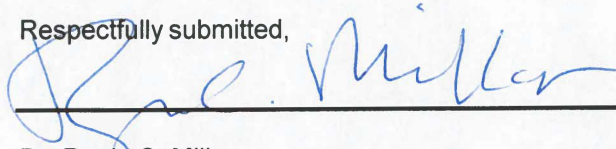

2. The statutory standards for intervention are set forth in RSA 541-A:32, I and II. First, a petition for intervention *must* be granted if the petitioner states facts demonstrating how its rights, duties, privileges, immunities or other substantial interests may be affected by the proceeding (or the petitioner qualifies under any provision of law) and interests of justice and orderly and prompt conduct of the proceedings would not be impaired by allowing intervention. See RSA 541-A:32, I (b) and (c). Second, the Committee may grant a petition to intervene "at any time, upon determining that such intervention would be in the interests of justice and would not impair the orderly conduct of the proceedings." RSA 541-A:32, II. See also N.H. Admin. R. Site 202.11 (requiring the presiding officer to grant one or more petitions to intervene in accordance with the standards of RSA 541-A:32). For the reasons presented below, I (Regis C. Miller) meet both of the foregoing mandatory and discretionary intervention standards.

3. I (Regis C. Miller) have rights, duties, privileges, immunities or other substantial interests that may be affected by this proceeding as a property owner and an abutter with Right of Way (ROW) easements as indicated in studies included with the Application (Application, Appendix 5, Engineering Design Drawings, page 8, Drawing Number: F10743008) for an approximately 2,738 linear foot portion of the Seacoast Reliability Project.

4. Further, the interests of justice and the orderly and prompt conduct of the proceedings would not be impaired by allowing intervention.

WHEREFORE, I, Regis C. Miller, respectfully request that the Site Evaluation Committee grant me intervenor status in the proceeding and grant such other relief as the Committee deems just and equitable.

Respectfully submitted,

Dr. Regis C. Miller
