The Merrimack River Local Advisory Committee

Michele L. Tremblay, Chair
PO Box 3019
Boscawen, NH 03303

Re: Shoreland Permit Application – The Northern Pass Project

Dear Ms. Tremblay:

Enclosed please find a copy of the Shoreland Permit Application package that will be filed with the NH Department of Environmental Services (DES) and New Hampshire Site Evaluation Committee for the Northern Pass Project. The project includes work in or around rivers, lakes, streams ponds, etc. Under state law, it is a requirement to provide the municipalities and Local River Advisory Committees having jurisdiction over these waterbodies with a copy of the shoreland application by Certified mail, for review and comment. Please find attached a copy of the application, which proposes work within the protected shoreland of a public water or Designated River in your regulatory area.

Sincerely,

A handwritten signature in blue ink that reads "Lee E. Carbonneau".

Lee Carbonneau

1.0 Shoreland Permit Application

SHORELAND PERMIT APPLICATION

Water Division/ Shoreland Program

Land Resources Management

Check the status of your application: <http://des.nh.gov/onestop>

RSA/Rule: RSA 483-B, Env-Wq 1400

Administrative Use Only	Administrative Use Only	Administrative Use Only	File Number:
			Check No.
			Amount:
			Initials:

This is an application for a permit to excavate, fill or construct new structures within the protected shoreland as regulated under RSA 483-B. For a complete list of activities that do not require a shoreland permit, view the shoreland program [frequently asked questions](#) (FAQ's)

Please type or print clearly. **Please note:** Application packages missing required elements will be returned to the applicant in their entirety, including the fee. Land Resources Management will include a letter identifying the missing elements and describing how to resubmit the application package to DES. Application packages that are accepted will proceed to technical review to ensure the applicant has fulfilled all requirements as specified by statute or rules. For more information visit the [New Land Resources Management Application Return Process](#) site located on the Shoreland Program Page.

1. PROPERTY OWNER

LAST NAME, FIRST NAME, M.I.: Public Service Co. of NH d/b/a Eversource Energy (PSNH), c/o Kevin McCune, Supervisor, Environmental Affairs Licensing and Permitting

TOWN/CITY: Franklin

STATE: NH

ZIPCODE: 03235

WATERBODY NAME: Merrimack River

TAX MAP: 126

LOT NUMBER: 401

3. CONTRACTOR OR AGENT

LAST NAME, FIRST NAME, M.I.: Carbonneau, Lee E.

ADDRESS: 25 Nashua Rd

TOWN/CITY: Bedford

STATE: NH

ZIPCODE: 03110

PHONE: 603-637-1150

EMAIL: lcarbonneau@normandeau.com

4. CRITERIA

Please check at least one of the following below:

- ☒ This shoreland permit application requires neither a proposal to make the property more nearly conforming nor a request for a waiver of a minimum standards.
- ☐ This shoreland permit application includes a proposal to make the structures and/ or the property more nearly conforming in accordance with RSA 483-B:11
- ☐ This shoreland permit application includes a request for a waiver of the following minimum standard(s)

5. PROJECT DESCRIPTION

Total Square feet of impact 12,783 Total square feet of new impervious area 20

shoreland@des.nh.gov or (603) 271-2147

NHDES Wetlands Bureau, PO Box 95, Concord, NH 03303-0095

www.des.nh.gov

Provide a complete description of the proposed project. **A new high voltage transmission line will be constructed in an existing transmission ROW, and existing transmission and distribution lines will be relocated. The Franklin Project area includes one Shoreland location along the Merrimack River. Work in the Shoreland includes the relocation of one existing monopole, as shown in the project plans. One temporary construction access path and one temporary work pad will be established, and these work areas will be restored after construction. In addition, 12,615 square feet of tree clearing is planned within the existing ROW.**

6. PERMIT APPLICATIONS SUBMITTED

Please indicate if applications for any of the permits listed below have been submitted or will need to be submitted:

- ☒ Wetlands Permit per RSA 482-A ☐ Individual Sewage Disposal System per RSA 485-A:29
☒ Alteration of Terrain Permit Per RSA 485-A:17 ☐ Subdivision Permit Per RSA 485-A:29

7. REFERENCE LINE ELEVATION (REQUIRED FOR LAKES, PONDS, AND ARTIFICIAL IMPOUNDMENTS)

Reference line elevations for most lakes, ponds and artificial impoundments greater than 10 acres in size are listed in the [Consolidated List of Waterbodies Subject to the Shoreland Water Quality Protection Act](#). Please see RSA 483-B:4, xvii for the definition of reference line.

The reference line for this waterbody is: 254 Feet

8. SHORELAND FRONTAGE Shoreland frontage is the actual frontage along the waterfront measured at the reference line.

The shoreland frontage on this lot is : 228 Linear Feet

☐ N/A – No Direct frontage on this lot

9. APPLICATION FEE

A non-refundable permit application fee of \$100 plus \$0.10 per total square foot of is required at the time the application is submitted. Fees are capped at \$750 for projects impacting less than 10,000 sq ft, \$1,875 for projects impacting between 10,000 and less than 25,000 sq ft, and \$3,750 for projects impacting 25,000 sq ft and greater. Please note that your application will not be considered complete if it does not include the appropriate fee. **Please make checks payable to the Treasurer, State of NH.**

10. CALCULATING THE TOTAL IMPACT AREA AND PERMIT APPLICATION FEE

Total impact area is calculated by determining the sum of all areas disturbed by regrading, excavation, filling, construction, and structure removal. Impacts often include, but are not limited to: constructing new driveways, constructing new structures, areas disturbed when installing a new septic system or foundation, creating temporary access roads for the purpose of installing a well and regrading associated with landscaping activities.

Total Area Impacted within 250 Of the Reference Line. = 12,783 (A) Square Feet

Multiply the total Impact Area By 10¢ and add \$100.00. [(A) X .10 + \$100.00] = \$ Permit Fee Exempt per 483-B:5-b III

11. REQUIRED CERTIFICATIONS

By initialing within the blank before each of the following statements, and signing below, you are certifying that: to the best of my knowledge, the information provided is true, complete and not misleading.

- ☒ I understand that any permit or waiver granted based on false, incomplete, or misleading information shall be subject to revocation.
- ☒ I am aware that obtaining a shoreland permit will not exempt the work I am proposing from other state, local or federal approvals.
- ☒ I have notified the municipality or municipalities in which the proposed impacts are located and provided them with a complete copy of the application and all supporting materials on / / via certified mail.
- ☒ This project is within ¼ mi of a [designated river](#) (river name: Merrimack River) and I have notified the [Local River Management Advisory Committee](#) by providing them with a copy of the complete application, including all supporting materials, via certified mail on day: 16 month: 10 year: 2015 and I have included a copy of the certified mail receipt in the application submittal (RSA 482-A:3,i(d)(2))

<input type="checkbox"/> This project is not within ¼ mi of a designated river			
N/A I have notified all abutters of the proposed impacts via certified mail as required by RSA 483-B:5-b, iv-a. (see definition of "abutter" on page (6)). Exempt per RSA-483-B:5-b, IV (A)			
12. SIGNATURES (Both must sign per Env-Wq 1406.08)			
OWNER NAME	See attached signature page	PRINT NAME LEGIBLY: Kevin McCune, PSNH d/b/a Eversource Energy	DATE: <input type="text"/>
APPLICANT NAME	See attached signature page	PRINT NAME LEGIBLY: Kevin McCune, PSNH d/b/a Eversource Energy Northern Pass LLC, c/o Robert P. Clarke, Project Director	DATE: <input type="text"/>

Please mail this application and all other attachments to the Department of Environmental Services Wetlands Bureau, PO Box 95, Concord NH 03302-0095. Missing information will delay processing of your application and may result in denial of a Shoreland Permit.

SHORELAND APPLICATION WORKSHEET

This form must be submitted to the Department of Environmental Services Wetlands Bureau accompanied with a Shoreland Permit Application. [Instructions for completing this form](#) are available on the shoreland program web page.

For the purposes of this worksheet, "**Pre-Construction**" impervious surface areas¹ means all human made impervious surfaces² currently in existence on the property, whether to be removed or to remain after the project is completed. "**Post-Construction**" impervious area means all impervious surfaces that will exist on the property upon completion of the project, including both new and any remaining pre-existing impervious surfaces. All answers shall be given in square feet.

CALCULATING THE IMPERVIOUS AREA WITHIN 250 FEET OF THE REFERENCE LINE			
	STRUCTURE DESCRIPTION	PRE-CONSTRUCTION IMPERVIOUS AREA	POST-CONSTRUCTION IMPERVIOUS AREA
PRIMARY STRUCTURE Include all <u>attached</u> decks and porches.	<u>Transmission structure foundations</u>	<u>7</u> FT ²	<u>27</u> FT ²
ACCESSORY STRUCTURES All other impervious surfaces excluding lawn furniture, well heads, and fences. Common accessory structures	_____	_____ FT ²	_____ FT ²
	_____	_____ FT ²	_____ FT ²
	_____	_____ FT ²	_____ FT ²

¹ "**Impervious surface area**" as defined in Env-Wq 1402.15 means, for purposes of the impervious surface limitation specified in RSA 483-B:9, V(g), the sum total of the footprint of each impervious surface that is located within the protected shoreland.

² "**Impervious Surface**" as defined in RSA 483-B:4, VII-b means any modified surface that cannot effectively absorb or infiltrate water. Examples of impervious surfaces include, but are not limited to, roofs, and unless designed to effectively absorb or infiltrate water, decks, patios, and paved, gravel, or crushed stone driveways, parking areas, and walkways.

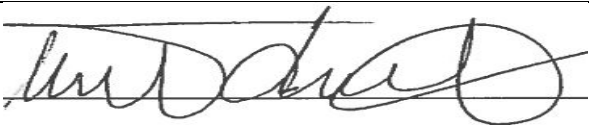

include, but are not limited to: driveways, walkways, patios and sheds.	_____	_____ FT ²	_____ FT ²
	_____	_____ FT ²	_____ FT ²
	_____	_____ FT ²	_____ FT ²
TOTAL:		(A) <u> 2 </u> FT²	(B) <u>27</u> FT²
Area of the lot located within 250 ft of reference line:			(C) <u>56,916</u> FT²
Percentage of lot covered by pre-construction impervious area within 250 ft of the reference line: [divide (a) by (c) x 100]			(D) <u>0.01</u> %
Percentage of lot to be covered by post-construction impervious area within 250 ft of the reference line upon completion of the project: [divide (b) by (c) x 100]			(E) <u>0.05</u> %

IMPERVIOUS AREA THRESHOLDS

DETERMINING IF A STORMWATER MANAGEMENT PLAN IS REQUIRED	
<input checked="" type="checkbox"/>	This project does not require a stormwater management plan because the proposed post-construction impervious area (Calculation E) is less than or equal to 20%.
<input type="checkbox"/>	This project requires a stormwater management plan because the proposed post-construction impervious area (Calculation E) is greater than 20%, but not greater than 30%. See details on the <i>Checklist of Required Items</i> on page 6
<input type="checkbox"/>	This project requires a stormwater management plan designed and certified by a professional engineer because the post-construction impervious area (Calculation E) is greater than 30%; and All waterfront buffer grid segment must meet at least the minimum required tree and sapling point score. See details on the <i>Checklist of Required Items</i> on page 6

UNALTERED STATE REQUIREMENT

CALCULATING THE AREA TO REMAIN IN AN UNALTERED STATE
--

Total area of the lot between 50 ft and 150 ft of the reference line within which the vegetation currently exists in an unaltered state ³ (see definition below) . If this area is completely altered, place a zero on line (F) and (I) and proceed to (J) .	(F)
Total area of the lot between 50 ft and 150 ft from the reference line	(G) _____
At least 25 percent of the vegetation within area (G) must remain in an unaltered state. [.25 x G]	(H) _____
Place the smaller of line (F) and calculation (H) on this line. In order to remain compliant with RSA 483-B:9, V(b), this is the minimum area that must remain in an unaltered state between 50 ft and 150 ft from the reference line. This area must be represented on all plans.	(I) <u>0*</u>
Name of person who prepared this worksheet:	(J) <u>Tracy Coolidge</u>
Name and date of the plan this worksheet is based upon:	(K) <u>NHDES Shoreland Permit Application Plans Merrimack River Franklin, NH 9/14/2015</u>
SIGNATURE: 	DATE: <u>10/13/2015</u>

***Unaltered State-**

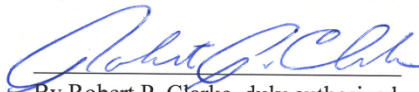

Vegetation in a public utility right-of-way must be maintained/ mowed regularly for safety and operational purposes. There is little or no land in an unaltered state within an active transmission corridor, and therefore no calculations for this metric were performed. Furthermore, RSA 483-B:9 IV-b. states “Public utility lines and associated structures and facilities, public roads, and public water access facilities including boat ramps shall be permitted by the commissioner as necessary and consistent with the purposes of this chapter and other state law.” In addition, RSA 483-B:2 XVI provides for economic development in proximity to waters.

³ **“Unaltered State”** means native vegetation allowed to grow without cutting, limbing, trimming, pruning, mowing, or other similar activities except as needed for renewal or to maintain or improve plant health.

2.0 Copy of Check for Application Fee

N/A, per RSA 483-B:5-b-III. Construction of public roads, public utility lines and associated structures and facilities, and public water access facilities shall be exempt from the permitting fees of paragraph I and the abutter notification requirements of paragraph IV-a.

3.0 Project Specific Work within the Protected Shoreland

The Northern Pass project area extends from the international border of Canada and the United States in Pittsburg, New Hampshire to Londonderry, New Hampshire. The Project will require work within the 250 foot protected shoreland of multiple waterbodies. This application includes information related to the work within an existing transmission ROW that intersects the protected shoreland of the Merrimack River in Franklin, NH (Appendix C, Locus Map).

The Project seeks to take advantage of existing transmission and road ROW in order to minimize environmental and other impacts. There are areas within the existing ROW where vegetation is greater than 20 feet tall, or tree branches have extended into the cleared ROW. This vegetation must be cut or trimmed for construction and line clearance reasons. There are also locations where existing electric lines must be relocated. In these areas, the existing 115 kV transmission lines and/or 34.5 kV distribution lines will be relocated within the ROW to create room for new Project infrastructure.

Unless there are clearance or other safety issues, the proposed temporary access roads will follow existing access roads or ATV paths currently in the ROW, if present. On average, temporary access roads will be about 16 feet in width at the surface, but may be up to 20 feet wide at the base, if temporary grading or fill is needed. Access roads in upland areas are proposed to remain in use until the end of Project construction. Temporary work pads must be flat for equipment stability, and grading may be necessary in some locations.

The Project proposes to replace the existing transmission structure in the shoreland with another structure that will be of similar size or slightly larger/taller. The structure may be directly embedded or have a supporting foundation, depending on site conditions at the new location. During the detailed design process, other foundation designs might be considered based on their capacity to improve constructability, reduce environmental impacts or achieve other benefits.

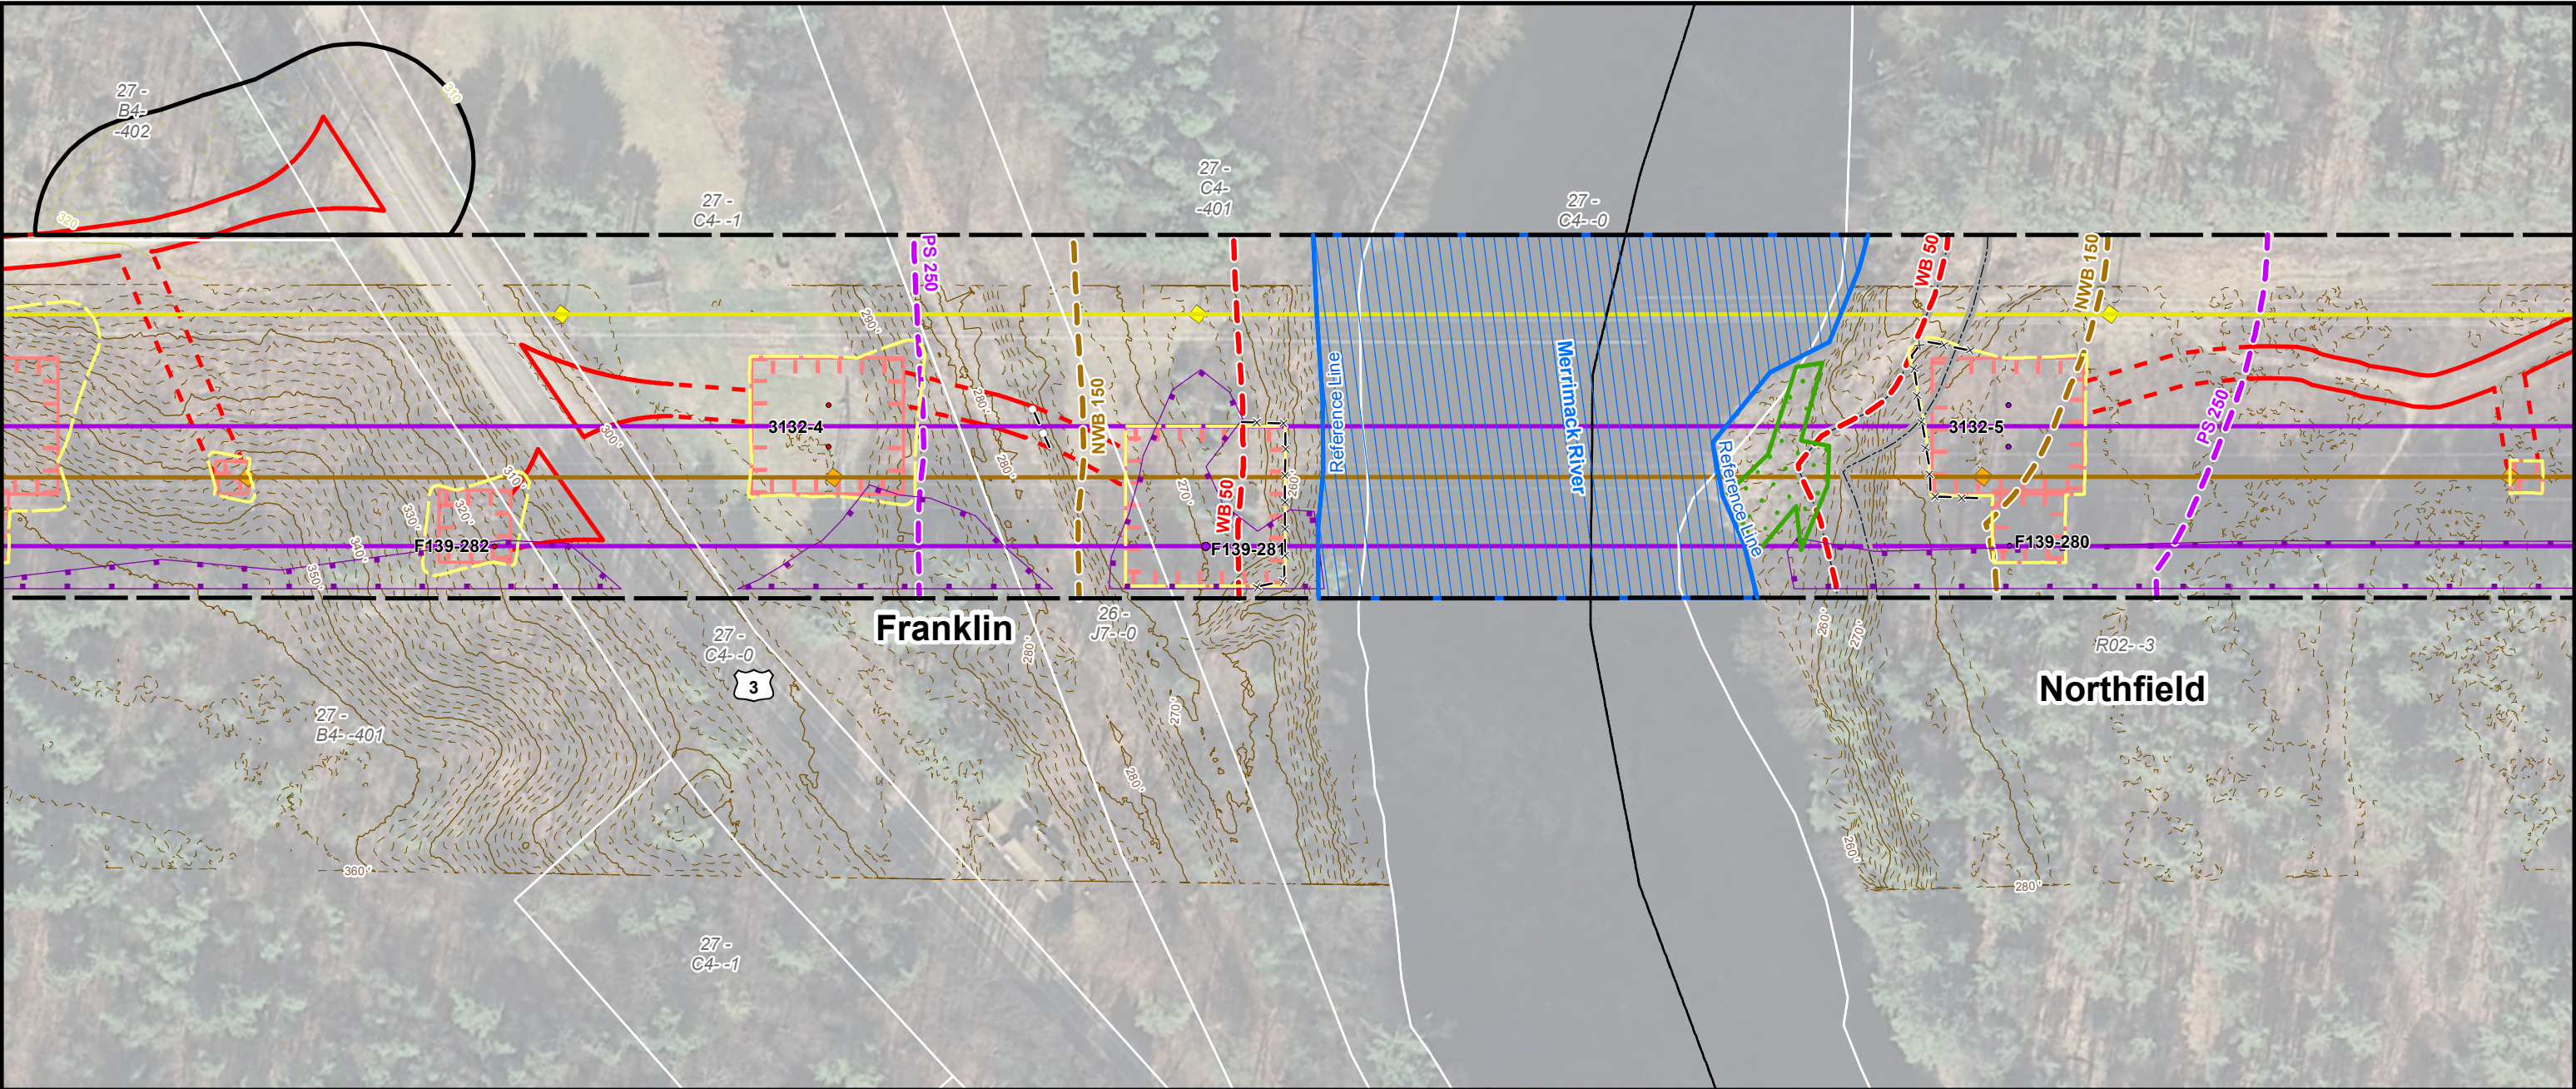

3.1 Merrimack River

The Merrimack River is part of the S1 overhead line portion of the Project. The Merrimack River at this shoreland crossing is classified as a sixth order river (R2UB2) with a sand bottom and at the shoreland crossing the river is approximately 320 feet wide. There are three parcels of land within the Shoreland zone in Franklin. The 16 acre parcel of land on the northwestern shore of the river is owned by the New Hampshire Department of Transportation. Just northwest of that parcel is a rail trail corridor owned by the City of Franklin, and to the northwest of that corridor is a residential lot owned by the Champagnes. Within a half mile of the Protected Shoreland of the Merrimack River in Franklin, NH there is one element occurrence identified by the Natural Heritage Bureau. The Natural Heritage Bureau identified the Brook Floater (*Alasmidonta varicosa*) within a half mile of the Protected Shoreland Buffer of the Merrimack River (Attachment F). The project will have no impact on this rare freshwater mussel.

Permanent impacts within the shoreland will occur from one relocated monopole structure, currently outside of the Shoreland, which will be installed within 100 feet of the river as shown in the project plans (Attachment A). Another structure currently exists in the ROW at approximately the same distance from the River as the relocated structure will be. Temporary impacts will result from the installation of a construction vehicle access road and a construction pad. In addition, 12,615 square feet of clearing is planned in the ROW, primarily managed vegetation that is due for maintenance cutting. Erosion control will be installed northwest of the Merrimack River to prevent impacts to the river. For all work within the shoreland buffer, tree stumps will be left in place except where structure excavation is needed, and shrub and herbaceous vegetation will be undisturbed wherever possible.

Franklin Merrimack River Site 1	0'-50' Waterfront Buffer	50'-150' Natural Woodland Buffer	150'-250' Shoreland Buffer	Total Impacts at Shoreland Crossing
Temporary Impacts	2,820 sq. ft. construction pad	7,764 sq. ft. construction pad, access road	2,179 sq. ft. access road	12,763 sq. ft. construction pad, access roads
Permanent Impacts	0 sq. ft.	20 sq. ft. 1 relocated monopole	0 sq. ft.	20 sq. ft. 1 relocated monopole
Pre-Construction Impervious Surface Area	0 sq. ft.	7 sq. ft.	0 sq. ft.	7 sq. ft.
Post-Construction Impervious Surface Area	0 sq. ft.	2720 27 sq. ft. 1 relocated monopole	0 sq. ft.	27 sq. ft. 1 relocated monopole

KNOW ALL MEN BY THESE PRESENTS

That we, Charles A. Anderson and Clara B. Anderson

of Franklin County of Merrimack

in The State of New Hampshire.

(hereinafter called the Grantor) in consideration of one dollar and other valuable considerations paid by the Public Service Company of New Hampshire, a corporation having a principal place of business at Manchester, in the County of Hillsborough, and The State of New Hampshire (hereinafter called the Grantee); the receipt whereof is hereby acknowledged, do hereby give, grant, bargain, sell and convey unto the Grantee and its successors and assigns forever, the RIGHT and EASEMENT to erect, repair, maintain, rebuild, operate, patrol and remove electric transmission and distribution lines, consisting of suitable and sufficient poles and towers, with suitable foundations, together with wires strung upon and extending between the same, for the transmission of electric current, together with all necessary cross-arms, braces, anchors, wires, guys and other equipment over and across a strip of land 225 feet in width in the town/city of Franklin county of Merrimack State of New Hampshire.

Said 225 foot strip shall extend 75 feet northeasterly and 150 feet southwesterly of a line or extension of a line, described as follows:

Beginning at a point in the westerly boundary line of Grantor's land on the easterly side of the Daniel Webster Highway, said point of beginning being three hundred thirty-two (332) feet measured southerly along the easterly side of said highway from the northwesterly corner of Grantor's land; thence running South 23° 30' E a distance of two hundred eight (208) feet to a point in the easterly boundary line of Grantor's land and the westerly boundary line of the Boston & Maine Railroad.

Said 225 foot right of way strip includes the 100 foot right of way strip purchased by the Grantee in 1928.

Being a part of the same premises described in deed of Harry A. Eaton to Charles A. Anderson, et al. dated August 4, 1945 and recorded in the Merrimack County Registry of Deeds, Book 618 Page 142.

NOV 30 1950

For value received, the Merrimack County Savings Bank, holder of a mortgage given by Charles A. Anderson and Clara B. Anderson to it dated August 4, 1945, and recorded in the Merrimack County Registry of Deeds, Book 613, Page 552, releases said mortgage insofar as it covers the easements and rights granted by the within deed, but not otherwise.

Harry A. Eaton
Executive Vice President

6019 Rev. 1M 4-50-F

This conveyance shall include (1) the right to clear and keep clear the strip of all trees and underbrush by such means as the Grantee may select, and to remove all structures or obstructions which are now or may hereafter be found within the limits of the above described strip and (2) the right to remove from the premises of the Grantor above referred to such trees as in the judgment of the Grantee may interfere with or endanger said lines or their maintenance or operation.

All wood and timber on said strip which is cut by the Grantee shall remain the property of the Grantor but the Grantee shall have the right to cut, fit and leave such wood and timber in such manner as it may determine.

And the parties hereto, by delivering and accepting this conveyance, agree that all agreements, understandings and negotiations, written or verbal, heretofore made or entered into by the parties hereto or their representatives with respect to this conveyance are hereby waived and cancelled, and that there are no agreements, promises, representations or understandings with respect to this conveyance not herein mentioned.

To have and to hold to the Grantee and its successors and assigns forever.

The Grantor covenants and agrees that they have full right, title and authority to convey the foregoing rights and easements and will defend same to said Grantee against the lawful claims or demands of all persons.

And we Charles A. Anderson and Clara B. Anderson
husband and wife

for the consideration aforesaid, do hereby release to the said Grantee our Respective rights of Easement and Easement in the before-mentioned premises.

(Second Tract)

A certain tract of land situated in Franklin, County of Merrimack and State of New Hampshire, with the buildings thereon, bounded as follows: Commencing at an oak stick on the east side of the Daniel Webster Highway at the southwesterly bound of land now or formerly of Gardener Longfellow; thence going south by said highway about 900 feet to the junction of said highway with the railroad; thence north up said railroad about 800 feet to land of said Longfellow; thence west by said Longfellow's land to the point of beginning. Being the premises conveyed to me by warranty deed of Edith Johnson, dated February 14, 1938, and recorded in the Merrimack County Registry of Deeds, Vol. 557, Page 592.

Excepting any of said granted premises that comes within a distance of 35 feet measured easterly from the center line of the highway as shown on a Plan of Federal Aid Project No. 219-E for 1931, in the records of the New Hampshire State Highway Department. Reserving the right to maintain the pump and the driveway approaches to same as graded by the New Hampshire State Highway Department.

To: William McCloy, Normandeau Associates, Inc.
From: Melissa Coppola, Environmental Information Specialist
Date: March 30, 2015
Subject: Northern Pass Database Request (NHB15-0611)

This memo is to confirm that Normandeau Associates have coordinated with the NH Natural Heritage Bureau (NHB) regarding information on known locations of rare species and exemplary natural communities for the Northern Pass project.

Due to the size and scope of the project, NHB is not providing a typical NHB review memo for permitting. Instead, this memo summarizes information provided by NHB to date, and notes that specific recommendations should be developed after project plans are close to being finalized:

- Normandeau was provided with digital data for the project under a data-sharing agreement dated 1/16/15 (397 digital NHB records). This is the sixth data-sharing agreement Normandeau has requested for this project: others were provided in 2010, 2011, 2012, 2013, and 2014 for project planning and ecological impact studies. NHB has also reviewed work plans associated with plant and community survey methodology on several occasions, including a meeting on 6/18/10.
- At the request of NHB, Normandeau consultants have conducted rare plant and natural community surveys within the proposed project area. If the project area extends to new locations, or new concerns are identified, additional surveys may be requested.
- As the project progresses and impacts areas are further clarified, Normandeau should set up a meeting with NHB staff to discuss avoiding and minimizing impacts to rare plant species and exemplary natural communities.

New Hampshire Natural Heritage Bureau

DRED - Division of Forests & Lands
172 Pembroke Road, Concord, NH 03301
(603) 271-2214

To: Lee Carbonneau, Normandeau Associates, Inc.
From: Amy Lamb, Ecological Information Specialist
Date: October 5, 2015
Subject: Northern Pass Pre-Application Meeting Summary (NHB15-0611)

On March 30, 2015, Melissa Coppola issued a NH Natural Heritage Bureau (NHB) memo (NHB15-0611) to Normandeau Associates, Inc. that listed Threatened and Endangered species populations that will potentially be impacted by the proposed Northern Pass project. Since that date, NHB and Normandeau have met on several occasions to discuss project impacts, avoidance and minimization measures, route changes, and the remaining survey work to be completed.

This memo summarizes the most recent pre-application meeting, which took place on October 1, 2015. This meeting was held in order to review current rare plant and natural community information, refine avoidance and minimization measures, and determine additional steps to be taken in preparation for permit application submittal at the end of October, 2015.

The meeting resulted in the following determinations regarding data and documentation:

- NHB last provided digital data to Normandeau in February of 2015, and will continue to provide any new data (i.e., new plant surveys within the project area) as they become available.
- Normandeau will provide the final reports on Vegetation and Threatened and Endangered species to NHB upon completion.
- Normandeau will provide NHB a table summarizing the anticipated impacts to all rare plants and exemplary natural communities within the selected corridor. This table will distinguish between the different types of impacts and their resulting (long-term) effects on rare plants and exemplary natural communities.

- Any reports that are filed as publicly available information will not contain specific locations of rare plants; this information will be restricted to an appendix and treated as confidential, and will be removed from publicly available reports.
- The rare plant avoidance and minimization measures that the applicant has proposed were developed in consultation with NHB. NHB will provide additional species-specific avoidance and minimization guidance during the permit review period. This will consist of a table with prioritized actions for each species.
- As any new areas for access, staging, etc. become known, Normandeau (or any subsequent contractor) will conduct rare plant surveys in the areas and provide the results to NHB.
- Normandeau identified Lee Carbonneau as the point person for future Natural Heritage communications, and the NHB point person will be Amy Lamb.

The meeting also resulted in the determination of several measures to avoid and minimize impacts to Natural Heritage resources during construction:

- Meetings will be held among contractors, environmental monitors, and inspectors, prior to contractors working in or near areas where listed plants are located, that will include making contractors aware of sensitive areas and the appropriate best management practices for each area.
- Plans that are provided to contractors will contain a color-coded bar indicating the extent of a sensitive area; no further information will be revealed on such plans.
- Normandeau (or any subsequent contractor) will have "Sensitive Areas" signs installed around rare plant populations and exemplary natural communities to alert work crews to their presence.
- It was agreed that it is critical that environmental monitors have the power and authority to stop work immediately if they become aware that any action will violate agreed-upon BMPs.
- NHB will make a recommendation to NHDES regarding qualifications of Environmental Monitors, to be included as a permit condition.

NHB and Normandeau will continue to communicate as the project progresses, in particular as any route changes or new impacts to rare plants become known.

Northern Pass has coordinated with the NH Natural Heritage Bureau (NH NHB) since 2010 to obtain information on known locations of rare species and exemplary natural communities within a half mile of the Northern Pass Project. Normandeau Associates was provided with a digital data set for known locations. Based on the information provided by NHNHB and additional desktop research, Normandeau Associates prepared and implemented a work plan for field surveys for rare plant and natural community surveys. This work plan was approved by the NH NHB.

Within a half mile of the Protected Shoreland of the Merrimack River in Northfield, NH there is one element occurrence identified by NH NHB, the Brook Floater (*Alasmodonta varicosa*). The project is not expected to have any impact on this rare freshwater mussel.

Re: Shoreland Permit Application – The Northern Pass Project

Dear Ms. Tremblay:

Enclosed please find a copy of the Shoreland Permit Application package that will be filed with the NH Department of Environmental Services (DES) and New Hampshire Site Evaluation Committee for the Northern Pass Project. The project includes work in or around rivers, lakes, streams ponds, etc. Under state law, it is a requirement to provide the municipalities and Local River Advisory Committees having jurisdiction over these waterbodies with a copy of the shoreland application by Certified mail, for review and comment. Please find attached a copy of the application, which proposes work within the protected shoreland of a public water or Designated River in your regulatory area.

Sincerely,

Lee Carbonneau
