Concord, NH 03301-2429

March 27, 2016

Dear Ms Monroe,

In addition to our position in the "Northern Abutters Under" group, we are signing a petition with the Harvey Swell Location group which groups non abutters from Pittsburg to Bethlehem. We agree with and support Brad Thompson's request that the group be divided between the Northern section: Pittsburg, Clarksville and Stewartstown, and the Southern section: Dummer, Stark, Northumberland, Lancaster, Whitefield, Dalton and Bethlehem. We agree that this group should be divided at the Wagner Wood Lot.

We also support the timeline put forth by the Society for Protection of New Hampshire Forests which would allow for proper consideration and due process by all parties involved in this issue.

We also want to make you aware that we have been unable to download the maps from your website. There have been several other things we have been unable to look at as well. We have tried on 3 different computers at 2 different locations at several different times of the day.

We also support having our state legislators involved in representing their constituents in this matter.

Respectfully submitted,

Jon and Lori Levesque
