

**Re: Request for Review of Out of Time Petition to Intervene
New Hampshire Site Evaluation Committee
Docket No. 2015-06 Northern Pass**

March 28, 2016

Pamela G. Monroe, Administrator
New Hampshire Site Evaluation Committee
21 South Fruit Street, Suite 10
Concord, NH 03301-2429

Dear Ms. Monroe,

I, Judith J. Dearborn, respectfully request to intervene in the SEC's proceedings under Docket No. 2015-06 relating to the proposed Northern Pass transmission line. Per the SEC's regulations, I am directing this electronic request to you, with copies to the SEC's distribution list for this proceeding as noted in the "cc" below.

I am filing this petition to intervene after the February 5, 2016 deadline and requesting your review at this time because the Applicants did not indicate that they would file their former preferred overhead project, which is a boundary line of my property, as the Alternate Route until February 26, 2016.

Attachment 1 to "Application Updates re: New Rules," filed with the SEC on February 26, 2016, is titled "NPT Project Maps – Alternate Route. Preliminary Design. February 2016. Additional Information." It is posted at Tab 261 on the SEC website page for the Northern Pass docket. Attachment 1 contains an updated map (dated February 2016) of the Alternate Route abutting my property.

The Applicants state that they are submitting these updated, February 2016 maps as additional information on "the one alternate route that [they] considered technically available, although not preferred, but that is in reality not a viable alternative" (Cover letter, February 26, 2016, also at Tab 261). Given the ambiguity of this statement and lacking a legal guarantee that this route, which was the preferred route for five years, will not be revived as the preferred route at some point in this proceeding, I am petitioning to intervene in order to protect my affected property interests, as is my statutory right.

My particular rights, duties, privileges, immunities or other substantial interests that may be adversely affected by the Alternate Route relate to the property that I own described as land located on Stone Post Road, Holderness, New Hampshire 03245, further described as Map/Parcel #210-018-000 and 449 Mt. Prospect Road, Holderness, New Hampshire, 03245.

I am an abutter to the proposed overhead project on the Alternate Route. The Eversource/PSNH ROW is a boundary line to my property which is subject to leaving a 300' treeline along the

boundary to protect the view shed and eliminate the view of the existing transmission line. The tree line is not to be cut specifically to protect the value of the property and the view. Furthermore, I own property that abuts the property with the PSNH Row. The view shed of this property will also be impacted. The address of this property is 449 Mt. Prospect Road, Holderness, NH 03245.

My property interests are unique and substantial. To combine my interests with those of others would limit my procedural rights and would hinder my ability to protect my property effectively, as is my statutory right.

Thank you for your consideration.

Sincerely,

Judith J Dearborn

Judith J Dearborn
